FLOWER ANTI-BACTERIAL HAND SOAP

Flower Anti Bacterial Hand Soap is specially formulated to ensure that your hands are not only clean, but also free of bacteria (and that includes viruses)

Covid-19 has profoundly changed our habits, and top of the changes is the constant need to wash hands to protect ourselves and those around us.

Our Anti Bacterial Hand Soaps make this repetitive task a joy! They are KeBS approved as an Anti Bacterial Hand Soap, as well as having met all of our stringent in house and third party laboratory tests. Our quality control procedures ensure that every bottle you buy is of the highest quality – guaranteed!

We offer three great fragrances:

Lavender and Tea Tree – made with real essential oils of lavender and tea tree – both oils have anti bacterial properties as well as a lovely soothing fragrance.

Bergamot and Geranium – made with real essential oils of bergamot and geranium – well known for their anti bacterial properties and their delicious citrus and floral scent.

Menthol Freshness – a fresh and minty fragrance to revitalise your spirit.

All three fragrances are sold in a 500ml clear bottle with a pump to minimise hand contact.

PACKAGING

12 x 500ml bottles

HAND SANITIZER GELS & LIQUIDS

HAND SANITIZER GELS

In these unusual times you can rely on Kapi Limited to produce an outstanding hand sanitizer that will kill any Covid-19 virus on your hands

We have formulated an extremely good hand sanitizer that meets with W.H.O. guidelines and is approved by KeBS.

Our Flower Hand Sanitizer Gel range is packaged in handy small bottles that you can discretely carry in your hand bag or pocket, so that you have our hand sanitizer protection with you all the time, and in larger bottles for use in your home and in the work place

PACKAGING:

72 x 50ml bottles with flip caps
24 x 250ml bottles with flip caps

48 x 100ml bottles with flip caps
24 x 500ml bottles with flip caps

HAND SANITIZER LIQUIDS

Our Hand Sanitizer Liquid range is formulated for use with our Flower Trigger Sprayers. As a liquid you apply it as a fine spray onto your hands or onto surfaces you want to sanitize. (Please be careful because this product is 70% alcohol and should be tested on a surface before spraying).

We supply either 500ml or 1 litre trigger bottles, and then you buy refill bottles (2 litre and 5 litre) to refill when empty, making it more affordable whilst cutting down on plastic waste

PACKAGING:

12 x 500ml bottles with trigger sprayers
6 x 2 litre refill bottles

12 x 1 litre bottles with trigger sprayers
1 x 5 litre refill bottle

FLOWER DUDUSPRAY

FOR THE HOME

Kenya's best and most natural insect spray. Better and safer than any of the insect aerosols on the market.

Designed for use in the home. Safe to spray on kitchen surfaces (very effective against cockroaches, ants, flies and other kitchen pests) and in bedrooms and on mosquito nets (to protect against mosquitoes).

With a pleasing, gentle fragrance this natural pyrethrum product is an excellent insecticide that is safe to use around the house.

Available in 500g and 1 litre re-useable trigger spray bottles and 2 litre, 5 litre and 20 litre refill bottles

PACKAGING

12 x 500g trigger bottles

12 x 1 litre trigger bottles

6 x 2 litre refill bottles

12 x 2 litre refill bottles

1 x 5 litre refill bottle

1 x 20 litre refill drum

FLOWER MOSSI CHIPS

MOSQUITO KILLER MATS

MOSSI CHIPS are excellent Mosquito Mats designed to be used in living areas and bedrooms to kill all mosquitoes. Use with an electric heater unit. Plug in and leave on through the night for 8-10 hours protection. Simply replace with a new MOSSI CHIP each night.

A RANGE OF FRAGRANCES TO SUIT ALL:

- * NEW Lavender and Roman Chamomile essential oils
- * NEW Citronella, Bergamot and Geranium essential oils
- * Floral fragrance
- * Sandalwood fragrance
- * Regular (fragrance free)

FLOWER LIQUID

MOSQUITO REPELLENT

Designed for use in living areas and bedrooms, the liquid bottle screws into an electric heater unit and plugs into a standard socket.

Provides complete protection against mosquitoes using a latest generation insecticide that is very safe for use in the home. Fragrance free.

Available in Starter Pack (electric heater unit plus 45ml refill bottle) and Refill Packs (45ml refill bottle)

PACKAGING

12 x Starter Pack units

24 x Refill Pack units

PALI 50 WP

INDOOR RESIDUAL INSECTICIDE

A wonderful insecticide that gives you protection in your home from mosquitoes, bed bugs, cockroaches and a wide range of other insects. Because PALI 50 WP is a residual insecticide it provides lasting protection for 4-6 months after each application.

PALI 50 WP uses Deltamethrin as its active ingredient, which is recommended by the World Health Organisation (W.H.O.) for indoor residual spraying.

Easy to use.

Follow the simple to use instructions on the pack

PALI 50 WP 20g sachet

Affordable and suitable for small homes and to treat bed bugs.

Available in all top supermarkets, chemists and agrovet

PALI 50 WP 100g sachet

Ideal for larger homes or more concentrated applications, schools, offices, hotels and any other place requiring protection from mosquitoes, bed bugs, cockroaches and a wide range of other insects.

Available in all good chemists and agrovet

PACKAGING

10 x 20g sachets

10 x 100g sachets

12 x 100g sachets (display carton)

MOSQUITO COILS

Kapi Limited has been making Kenya's best mosquito coils for over 50 years. All coils burn for longer than 7 hours.

Flower Coils: Are the deluxe coil and use a generous dose of insecticide to ensure a mosquito free environment. Sleep in peace throughout the night.

Available in red colour with the distinctive Flower Coil perfume.

Packed in boxes of 10 coils with stand (36 boxes per carton) or individually packed double coil that we sell as Moja kwa Moja

Combat coils: Are affordably priced and provide good protection against mosquitoes throughout the night.

Available in red and green colours.

Fragrance free.

Packed 10 coils and stand per box. 36 boxes per carton

PACKAGING

FLOWER DS 4EC

AGRICULTURAL INSECTICIDE

A 100% natural contact insecticide made with natural pyrethrum.

Flower DS 4EC is suitable for use in Organic Agriculture conforming to European Union Regulations (EC) No. 834/2007 and 889/2008 – Inspected by ECOCERT SA F – 32600

Flower DS 4EC offers the following benefits:

- * Very good efficacy on a wide spectrum of insects
- * Zero residues after 24 hours. Ideal for export crop needing to conform to M.R.L.'s
- * Suitable for Post Harvest application
- * Very short re-entry period for workers after spraying
- * Low mammalian/human toxicity
- * Suitable for organic farming
- * Zero phytotoxicity on flowers and vegetables

Flower DS 4EC can be used on its own, but for exceptional results it may be used together with Flower Dust (also supplied by Kapi Limited). Flower DS 4EC controls insects on the crop whilst Flower Dust controls the soil and soil surface.

Flower DS 4EC is manufactured and distributed by Kapi Limited.

Only available by direct order from Kapi Limited

For further details please contact Winrose on 0710 615 604

FLOWER DUST

AGRICULTURAL INSECTICIDE

Flower Dust is a 100% natural contact insecticide for agricultural use that is supplied in powder form. The active ingredient is pyrethrum at 0.25% w/w

Flower Dust is applied to the soil around the crop at a rate of 200kg per hectare. Kapi Limited agronomists will assist with training for your first application

The pyrethrum is absorbed into the soil and kills all insects within the soil (including pupae) as well as all insects on the surface (including caterpillars)

Flower Dust provides residual protection in and on the soil for over two weeks. As a natural pyrethrum product no residue will be found on the crop at or after harvest - perfect if you need to conform to Maximum Residue Levels for export crops.

Flower Dust is ideal for the control of thrips as it kills the pupae in the soil.

Flower Dust can be used on its own, but for exceptional results it may be used together with Flower DS 4EC (also supplied by Kapi Limited). Flower Dust controls the soil and soil surface whilst Flower DS 4EC controls insects on the crop.

Flower Dust is only available by direct order from Kapi Limited

For Further details contact Winrose on 0710 615 604
